### USER REPORT

Dear Sir / Madam

Hope Ramaphosa (Health Professional and owner of Seed of hope Health Centre) is a user of the complex Dianel Pro"225-ION as from Date 25 August 2013. To date 7<sup>th</sup> June 2017

Firstly I wish to express my gratitude to the Developers of the DIANEL BIOLAZ OBERON PROGRAMME. And to The Head of Customer Service of 'Centre of Information Technologies "Nellan"

I am a fully Qualified and Trained Health Care Professional with Tianshi Health Products.

My qualifications cover various fields of experience from social work, psychology (Graduate from Turfloop University Limpopo.

Studied preventive, curative rehabilitative and promotional health through private institutions in South Africa including specialized Training in Nutritional Supplements with Tiens SA-Tianshi Health Company in South Africa

My exposure and experience in nutritional supplements covers experience in several natural health product companies in South Africa – Maxi Health , Go for Health Amway and Tianshi to mention a few .

I got involved in Alternative Medicine, and nutritional supplements even before I discovered Bio Resonance Diagnoses and Testing .

I started using the Dianel Pro"225-ION as from Date 25 August 2013. To date 7<sup>th</sup> June 2017

I have not only managed to make an income but have opened a special office for the Dianel Pro testings .

By using this programme I have exploration of various natural remedy for my clients in Alternative medicine and nutritional supplements that are needed to complete the healing. I am also trained in Aromatherapy.

So far have tested 958 clients from 25<sup>th</sup> August 2013 to 7<sup>th</sup> June 2017

Through the testings, I have been able to grow in the knowledge of Natural Medicine and Bio Resonance diagnosis and testing using the device.

The testings have been greatly appreciated by the community because they have experienced the Diagnostic power of this program and the usefulness of this Device in determining their health condition.

Being in South Africa in Limpopo I had to learn to interpret the testing results in the various languages of the people of South Africa. Being a citizen of South Africa I can speak Zulu, Sotho, Pedi, Xhosa, Venda and English.

The clients of this program are satisfied with its accuracy and the full explanation of each of the ailments as pointed out in the diagnoses and testing.

The other advantage to me is the ease of connecting the machine to each component e.g.: the monitors, the earphones and the electrodes.

The other comfort is that it diagnoses in a clean and pain free way without touching blood, mucus etc thus it is safe.

I have also enjoyed the comfort of learning more about the human body and the function of the biology from this machine.

The idea of a mobile diagnostic device is an excellent benefit.

In my area this program is well known because being a radio personality and community leader I advertised my services in several media including Radio

Thank you

Hope Ramaphosa

Owner of Seed of Hope Health Centre / Platinum Distributor of Tianshi Health Products
